Discover the advantages of Senso Kitchens.

Aesthetics in harmony with ergonomics

design

The kitchen has evolved. Once used only for cooking, it now opens up to the rest of the dwelling and has become a meeting place. There are many aspects which should be taken into account so that an ideal one can be designed. We are eager to come to your aid.

Choose the face of your kitchen

fronts

A basic element of the kitchen. It is mainly the front that shapes the character of the interior. Which style would you prefer: minimalist, Scandinavian, rustic or maybe vintage? You should decide for yourself. Meanwhile, we will do our utmost to meet your expectations.

Adornments: the finishing touch to the work

handles

Their colour, shape and finishing may ultimately form the character of your kitchen – play first fiddle, emphasise divisions or be a discreet companion to the fronts. Only when chosen properly will they lend beauty to your kitchen.

We design our products with the utmost care for detail. Style matters. However we also pay attention to everything, even the smallest detail, to give you what you need.

Practical solutions

equipment

To provide the best comfort of work in this much-frequented room, we offer you many advanced technical solutions. Not only will we take care of order and optimal management of cabinet interiors, but also of their aesthetic appeal.

Our chairs and tables

will perfectly blend in with your kitchen

The dining room is frequently integral to the kitchen. The character of this interior and its level of comfort depend on what types of table and chairs are selected. A uniform style for the room is not always the best option. Therefore, rich forms may neatly match a background of subdued fronts. Shapes and colours complete the interior. In this catalogue, we present only a fraction of our wide portfolio.

accessories

will make your work in the kitchen easier

These are what make a kitchen interior functional and tasteful. Kitchen accessories and utensils may work miracles and adjust to your tastes and liking. This is the easiest way for your kitchen to metamorphose.

magasfényű cérna

- 87th smooth street – white gloss
biely lesk
biłá lesk
magasfényű fehér

87th smooth street

A kitchen in the shades of white. This colour brightens and optically enlarges even very cramped interiors. It evokes the feeling of freshness and emphasises the pristine neatness of the room, whereas the series of white fronts additionally brings order to the space.

TRAFFIC

98th elysee street

The masculine character of the interior is imposed by the simple form and colour range of the furniture. The minimalist simplicity of the kitchen units is compensated for by the large decorative pattern on the flooring.

equipment

Just like carefully selected spices, proper equipment can fundamentally change the kitchen. We offer a wide variety of additional equipment thanks to which you will rediscover the meaning of functionality. Find out for yourself how small objects and a few smart solutions may give your life a completely different flavour.

Household appliances

Furniture units for household appliances. Combine modern technologies with elegant design.

An extractor hood built in a cabinet is a discreet, yet very practical piece of kitchen equipment.

Thanks to the use of the AVENTOS HS lift, a single-part front may be easily opened in parallel upwards and held in any position. It is ideal for cabinets in which free-standing kitchen appliances are kept.

Dishwashers with panel fully integrated with front are intended for very clean designer interiors in which an entire row of kitchen furniture units constitutes a single, uninterrupted form.

Cargo

Each element of a well-arranged kitchen comes equipped according to the needs and expectations of users. If properly selected, they allow you to enjoy cooking, eating and life.

Thanks to high drawers and their internal organisers, we can have a pantry in the middle of our kitchen.

Functional cargo baskets make work easier, and thanks to runners with full extension and soft closing system, make the kitchen even more comfortable.

The Cargo – Blum system provides wide space for products and direct access to them from three sides.

The Le Mans system combines the optimal use of space in the corner cabinet with the comfort of its use. Each shelf can be separately withdrawn, which facilitates access to its contents.

The drawer with a high front in the Tandembox system allows the management of space in the kitchen sink cabinet according to the user's needs. The application of the electrical Servo-Drive system enables fully automatic opening of the drawer attached to the front.

The special shape of the kitchen sink drawer enables the maximum use of space in the cabinet and to mount the drawer right under the sink.

The Cleaning Agent rack in the kitchen sink cabinet is perfect for storing cleaning agents, sponges, dishwasher tablets and other accessories.

The modular EKKO – SYSTEM waste bins ensure functionality and easy segregation of waste. Each container comes with folded grips, which are also used for holding waste bags.

Functionally designed racks with adjusted handles. Blancobotton uses space efficiently. Modern, harmonious and practical design. Ease of use and maintenance.

The Tandembox Intivo drawer system by Blum allows the individual management of space in each drawer by use of the partition system.

The plastic insert coloured like the drawer ensures better space management in the drawer and, at the same time, keeps the modern look of the entire furniture.

Made of solid beech wood, the internal partition system gives the drawer a specific function.

Made of beech wood, the insert for storing plates and kitchen dishes is a functional and modern method for the management of space in the high Intivo drawer from Blum.

The internal drawer organisation system enables you to adjust the drawer for storing each type of content, and keep it in order.

Thanks to its use in cabinet drawers, we gain 25% of additional space. The internal drawer organisation systems let you arrange and manage drawer space according to the individual needs of the user.

Lighting

Functional and energy-saving lighting solutions are an unconventional way to change every interior.

Touch switch. Advantages of this switch include precise operation, small dimensions and modern look.

The LED fitting will work out well for lighting the top, cabinet interiors and display cases in the kitchen of every style.

The proximity connector will automatically turn on the LED lights after opening the drawer and turn them off after you shut the drawer, not to waste energy.

The LED fitting is dedicated to enthusiasts of technological innovations who, above all else, value quality and energy efficiency, as well as care for the environment. It combines many valuable features, and thanks to its assets it may come in very handy as utility lighting second to none!

The traditional under-cabinet light fitting works out well in every kitchen. It excellently illuminates the worktop, simultaneously lends character and style to the furniture.

The role of backlight of the wall-mounted cabinet bottoms is twofold. The strong even light will illuminate the worktop and expose any object in the display case.

- AZ EGYEDI SZEKRENYEK KÍNÁLATÁRÓL ÉRDEKLŐDJÖN AZ ÜZLETEKBEN

cabinet height, výšky skriniek, výšky skříněk, szekrények magassága

- dimensions are specified in centimetres, rounded down/up to even values; heights of lower cabinets, high and middle units, include the 10 cm base
- base sections of cabinets may be extended up to 15 cm, which will make the total cabinet height greater by 5 cm
- * cabinet heights available for the Emperor kitchen (Royal group)
- rozmery sú uvádzané v centimetroch so zaokrúhľením výšky dolných skriniek, vysokej aj strednej montáže sú uvádzané aj s 10 cm soklom
- soklovú časť skriniek je možné zväčšiť do 15 cm (o 5 cm bude vyššia celková výška skriniek)
- * výšky skriniek dostupné v kuchyni Imperor (skupina Royal)
- rozměry jsou uvedené v centimetrech a zaokrouhlené na plnou hodnotu výšky dolních skříněk, vysoké a střední sestavy jsou uváděny spolu s 10 cm soklem
- soklovou část skříněk lze zvýšit na 15 cm (v tom případě se zvýší o 5 cm celková výška skříněk)
- * výšky skříněk dostupné pro kuchyň Imperor (skupina Royal)
- a méretek centiméterben vannak, egészszámkra kerekítve. Az alsó szekrények teljes magassága, a magas és középmagas szekrények 10 cm-es lábazattal együtt vannak megadva
- a szekrények lábazata 15 cm-re növelhető (5 cm-rel magasabb lesz a szekrények teljes magassága)
- * a szekrények magassága az Imperor konyhában (Royal csoport)

The information presented in the catalogue is not a quotation within the meaning of the Civil Code. All the data contained in the catalogue is up-to-date in the month it is submitted to print (01/2018). Furniture dimensions specified herein are subject to minor changes; in this case, updated dimensions will be specified at brw.com.pl. All dimensions are external ones and include finishing. Due to restrictions of the printing method, the colours mapped in the catalogue may vary from the actual colours of the furniture and assortment of interior equipment on offer. The decorations used in the pictures are not included in the furniture price. The majority of the furniture presented in the catalogue is sold in DIY packages. Only the correct, in other words compliant with the instructions, assembly of the furniture guarantees satisfaction of its use.

Note: If you are not interested in this catalogue, do not dispose of it. Give it to someone who is interested. This way you will contribute to environmental protection.

Informácie v katalógu nie sú ponukou v zmysle Občianskeho zákonníka. Všetky údaje v katalógu sú aktuálne k mesiacu tlače katalógu (01/2018). Uvedené rozmery sa môžu nepatrne zmeniť, v tom prípade budú zaktualizované rozmery nábytku uvedené na internetovej stránke brw.com.pl. Všetky uvedené rozmery sú vonkajšie (zohľadňujú dokončovanie). Vzhľadom na limity použitej technológie tlače, skutočné farby sa môžu líšiť od farieb uvedených v katalógu. Zobrazené doplnky nie sú zahrnuté v cene nábytku. Väčšina nábytku prezentovaného v katalógu je určená na samostatnú montáž. Len správna montáž nábytku, teda podľa montážneho návodu, zaručuje spokojnosť užívateľa s používaním nábytku.

Upozornenie: Ak už nemáte o tento katalóg záujem, neodhadzujte ho. Podarujte ho niekomu, kto oň bude mať záujem. Takto prispějete k ochrane životného prostredia.

Nabídka prezentovaná v katalogu není nabídkou ve smyslu občanského zákoníku. Všechny údaje z katalogu platí v měsíci odevzdání do tisku (01/2018). Uvedené rozměry nábytku se mohou mírně změnit. Všechny uvedené rozměry jsou vnějšími rozměry (s konečnými úpravami). Vzhledem k omezením daným technikou tisku se barvy reprodukováné v katalogu mohou lišit od skutečných barev nábytku a interiérového vybavení. Dekorace na fotografiích nejsou zahrnuty v ceně nábytku. Veškerý nábytek prezentovaný v katalogu je prodáván v balení k samostatné montáži. Pouze řádná montáž nábytku (v souladu s návodem) může zaručit spokojenost při jeho užívání.

Upozornění: Pokud tento katalog již nebudete používat, nevyhazujte jej. Darujte jej dalším zájemcům. Přispějete tak k ochraně životního prostředí.
